# DUROXYL Wood Protection/Conditioner

Paraciticide - eliminates woodworms

## PROPERTIES

Effective, low odor insecticide for immediate action. It rids any type of wood constructs from wood eating insects or larvae and provides immediate, long lasting protection. It exterminates woodworm and stops the destruction of wood objects.

### **APPLICATION**

DUROXYL Wood Protection/Conditioner,effectively treats, all infected by woodworm, wood structures such as window frames and doors, floors, furniture, pergolas etc., for both exterior and interior surfaces.

## USE

Shake well before and during use. Unscrew the safety cap. Place the tip of the bottle into the hole of the wood surface that was created by the woodworm. Press the vial for approximately 5 seconds so the insecticide can reach to the invisible nesting area of the insect or larvae in order to exterminate it. After 24 hours, seal the

hole(s) with DUROWOOD, the acrylic, waterborne wood putty of DUROSTICK. In case woodworm appearance in timber store rooms, it is highly recommended to apply DUROXYL Wood Protection/Conditioner, (available in 2.5lt and 15lt containers), by brushing, spraying or dipping every piece of wood that is infected. Avoid using the product in hot or frosty conditions. Protect your hands with gloves and avoid any contact of the product with your face.

## CONSUMPTION

Each 120ml vial can cure 1-2m<sup>2</sup> of wood surface, depending on the type and the absorbency of the treated wood.

#### STORAGE

Store in shaded places, away from any heat source, for up to 24 months from production date.
